Furthermore, the Managing Board of the Company declares that if a shareholder grants a power of attorney with voting instructions, the Company will not verify if the proxies did exercise the voting rights in accordance with the instructions received from the shareholders. In the light of the above, the Managing Board of the Company would like to emphasize that voting instructions should be delivered to the proxy only.

The Company makes a reservation that a shareholder using electronic means of communication bears the sole and exclusive risk related to the use of such means of communication. The information on granting power of attorney in electronic form and draft resolutions concerning the issues put on the agenda of the OGM or issues which are to be put on the agenda should be submitted to the Company by the end of the day preceding the day of the OGM. The Company cannot guarantee that it will be able to verify the identity of shareholders presenting draft resolutions or granting a power of attorney on the date of the OGM.

5) Managing Board's report on the operation of the Capital Group BIOTON S.A. in the accounting year ended on 31 December 2015.

While making the analysis and assessment of the statements, reports and the motion referred to hereinabove, the Supervisory Board used the opinion and reports of the Chartered Auditor appointed to audit the financial statements of the Company and the Capital Group BIOTON S.A. for 2015 (hereinafter referred to as the "**Chartered Auditor**") as well as the opinion of the members of the Audit Committee of the Supervisory Board formulated after the Audit Committee's meetings with the participation of the Managing Board of the Company and the Chartered Auditor of the Company.

In the consequence of analysis of the prospective development of sales of respective products of the Company and its Capital Group, the decisions on disposal of non-strategic assets and discussions carried out with the new Supervisory Board of the Company, shaped in the consequence of significant changes in the Company shareholding structure which took place in 2015, the Managing Board of the Company decided to make a number of write-downs in 2015, covering among other:

- products from BioPartners Holdings AG portfolio: ribavirin, interferon beta and sustained release growth hormone, for the total amount of 485,393 kPLN
- the value of licences for the sale of veterinary products under the agreement concluded between Biolek Sp. z o.o. and Beijing Smile Feed Sci & Tech Co. Ltd in the total amount of 179,710 kPLN
- the value of the Capital Group MJ Bioton Life Science Ltd (with regard to the planned sale of the asset) in the total amount of 20.1 million PLN

Justification of the write-downs made by the Managing Board of the Company has been provided in detail in the financial statement of the Company and in the consolidated financial statement of the Group.

The write-downs made by the Company have caused that the Company breached the covenants specified in credit agreements concluded by the Company with ING Bank Śląski S.A. and HSBC Bank Polska S.A. Despite the fact that in both instances the Company obtained prior consents of both banks to exceed the financial indices specified in the credit agreements, the Managing Board of the Company, acting pursuant to the International Accounting Standards, has reclassified the above long-term indebtedness to short-term indebtedness.

The Chartered Auditor has stated in his opinions that:

- 1) the financial statements of the Company and the Group for 2015, except for the consequences of possible corrections resulting from the reservation specified in the Chartered Auditor's opinion, in all material aspects:

- present in a reliable and clear way information significant for the assessment of the material and financial situation of the Company and the Group as at 31 December 2015 as well as their financial reports for the accounting year from 01 January 2015 till 31 December 2015,
 - have been drawn up in line with the International Accounting Standards, International Standards of Financial Reports and interpretations thereto announced in the form of regulations of the European Commission, and within the scopes which are not regulated therein - according to the act of 29 September 1994 on accounting (Journal of Laws of 2009, No. 152, item 1223 as amended) ("**Accounting Act**") and the implementing provisions to this act and on the basis of properly kept accounting books of the Company,
 - are consistent with the legal regulations affecting the form and contents of financial statements, including the ones applicable to the Group and the provisions of the Articles of Association of the Company,
- 2) reports on the operation of the Company and the Group in the accounting year 2015 are complete in the meaning of Art. 49 paragraph 2 of the Accounting Act and the regulation of the Minister of Finance of 19 February 2009 on current and periodical information submitted by the issuers of securities and conditions of deeming equivalent the information required by the regulations of a state being a non-member state (Journal of Laws of 2009, No. 33, item 259, as amended), and the information contained therein and taken from the financial statements is consistent with them.

In the result of the above mentioned assessment, the Supervisory Board has decided to recommend to the Ordinary General Meeting of the Company:

1. approval of the financial statement of the Company for the accounting year ended on 31 December 2015,
2. approval of the Managing Board's report on the operation of the Company in the accounting year ended on 31 December 2015,
3. approval of the consolidated financial statement of the Capital Group BIOTON S.A. for the accounting year ended on 31 December 2015,
4. approval of the Managing Board's report on the operation of the Capital Group BIOTON S.A. in the accounting year ended on 31 December 2015,
5. adoption of the resolution on covering the net loss of the Company for the accounting year 2015 in the amount of 596,550,789.09 PLN (say: five hundred ninety six million five hundred fifty thousand seven hundred eighty nine zlotys 09/100) from future profits,
6. acknowledgement of fulfilment of duties by all members of the Managing Board and the Supervisory Board in the accounting year ended on 31 December 2015.

**ASSESSMENT BY THE SUPERVISORY BOARD OF BIOTON S.A.
OF THE COMPANY SITUATION IN 2015
(TAKING INTO ACCOUNT THE ASSESSMENT OF THE INTERNAL CONTROL
SYSTEM AND THE SYSTEM OF MANAGEMENT OF RISK SIGNIFICANT FOR
THE COMPANY)**

Pursuant to the rule III.1.1 of "The Best Practices of WSE Listed Companies", the Supervisory Board of BIOTON S.A. ("**Company**"):

- has analysed the financial statement and results of the Company for the accounting year 2015,
- has reviewed the opinion of the Chartered Auditor on the audit of the financial statement of the Company,
- during the Supervisory Board sessions carried out numerous discussions with the Managing Board of the Company concerning, among other, discussion of the Company plans as regards development of sale of the Company products, in particular insulins manufactured by the Company.

In the opinion of the Supervisory Board of the Company, despite the significant write-downs made by the Company in the accounting year 2015 and which negatively affected the financial results of the Company, one should assess the perspectives of Company development and the possibility to improve the financial results of the Company in future periods as positive. The write-downs are justified by the limited and fraught by high risk possibilities to commercialise some of the Company products, and the plans for sale of non-strategic Company assets.

In the financial statement for 2015 the Company has reclassified Company liabilities towards the banks financing the Company (ING Bank Śląski S.A. and HSBC Bank Polska S.A.) to short-term liabilities, due to the breach of financial indices specified in the respective credit agreements. Despite the fact that in both instances the Company obtained prior consents of both banks to exceed the financial indices specified in the credit agreements, the Managing Board of the Company, acting pursuant to the International Accounting Standards, has reclassified the above long-term indebtedness to short-term indebtedness.

In the opinion of the Supervisory Board the net loss recognised by the Company in the financial statement for the accounting year 2015 in the amount of 596,551 kPLN and the decrease of equity capital by the amount of 596,493 kPLN shall not put the continuance of Company operations at risk.

The Supervisory Board underlines the following important events for the Company:

- refinancing a significant part of Company indebtedness (in total 105m PLN), complete pay-off of Company liabilities due to the program of bonds issue (in total 57m PLN) and its consolidation in three financial institutions ING Bank Śląski S.A., HSBC Bank Polska S.A. and Bank Ochrony Środowiska S.A.;
- the change of the distributor of Company insulins on Chinese market, and cost-free termination of the previous distribution agreement concluded with Bayer Healthcare Company Ltd;

- winning a number of new investors by the Company, in the consequence of which the shareholding structure of the Company has been significantly changed - at present nearly 50% of Company shares are held by institutional shareholders, among which the leading role is played by two Chinese pharmaceutical concerns and a private equity investment fund;
- continuation by the Company of R&D works aiming at the introduction of new generation insulins to the market;
- advanced processes aiming at the sales of non-strategic assets of the Company (ZAO Indar, MJ Biopharm) having a positive impact on the cash-flow position of the Company in 2016;

The Managing Board is responsible for establishing an effective internal control system and risk management. The internal control system and the risk management system are adjusted to the extent and profile of risk related to the current operations of the Company and is under constant improvement. In the resolution adopted on 15 April 2016 the Supervisory Board suggested a new division of responsibilities among the Members of the Managing Board and obligated the Company to work out a new organisation chart of the Company. The Audit Committee, operating within the Supervisory Board of the Company, has recommended to the Supervisory Board and the Managing Board of the Company further development of the internal control system in order to adjust it to the planned directions of Company development, among other by establishing an internal audit section within the next 12 months, and continuance of the development of computer systems and procedures both in the Company and in the Group:

The basic Company documents pertaining to the internal control system and risk management include:

- accounting policy
- organisation regulations
- regulations of the Managing Board
- resolutions of the Supervisory Board concerning current functioning of the Company
- existing system procedures compliant with the pharmaceutical law requirements.

Important elements of the control and risk management process include the review and assessment of the financial statements of the Company and its Capital Group by a chartered auditor, Deloitte Polska Sp. z o.o. Sp. k. appointed by the resolution of the Supervisory Board of 12 June 2015. Within the review and audit of the financial statements of the Company the chartered auditor has assessed the internal control system and the system of risk management in financial reporting. The analysis was mainly focused on the process of drawing up the financial statement and the Managing Board's report on the operations of the Company, including the correctness of book-keeping, reliability of descriptions of accounting evidence and documents circulation. In the opinion of the chartered auditor:

1. the financial statements of the Company and the Group for 2015, except for the consequences of possible corrections resulting from the reservation specified in the Chartered Auditor's opinion, in all material aspects:
 - present in a reliable and clear way information significant for the assessment of the material and financial situation of the Company and the Group as at 31

December 2015 as well as their financial reports for the accounting year from 01 January 2015 till 31 December 2015,

JUSTIFICATION

Since July 2015 significant changes have been introduced in the shareholders structure of BIOTON S.A. At present nearly 50% of Company shares are held by institutional shareholders, among which the leading role is played by two Chinese pharmaceutical concerns and a private equity investment fund. Changes in the shareholding structure resulted in changes in the business strategy of the Capital Group BIOTON S.A. which assumes, among other, cooperation with the main industrial shareholders of the Company aiming at the extension of the products portfolio of the Group, and reinforcement of its position on the global pharmaceutical market, as well as further increase of sales of insulins manufactured by the Company, both on the markets where the product is already commercialized and on new foreign markets.

In the result of the redefinition of business strategy, the Company has made a number of decisions concerning further engagement in some of the projects. Their main premise was the limitation of financial risk, reduction of operating costs of the Company, focusing the existing resources on key competence and acceleration of the financial effect of commercialization of the already owned assets on selected markets.

In the result of the process of changes there were made certain write-downs updating the value of assets in the standalone financial statement as at 31 December 2015. Total write-downs in the standalone financial statement reflected in the profit and loss account amounted to 621 million PLN (taking into account the balance of non-cash exchange rate differences).
